

MEDAMA

MEDAMA GRIP

Medama Grip creates an adhesive bond of Medama Ironcoat to ceramic, natural stone, and concrete without acid etching.

Adding Medama Grip to Medama Iron coat will:

- ◆ Achieve superior adhesion to cement, stone and ceramic tile
- ◆ Eliminate the need to etch and deglaze
- ◆ No sealing the surface before Medama Ironcoat is applied
- ◆ Chemically bond Medama Ironcoat to the floor, while still being removable with Medama Power Strip
- ◆ Bond is so strong, DO NOT use on any type of manufactured floor

Advantages of Medama Grip:

- ◆ Mechanical and chemical bond to surface
- ◆ Unparalleled adhesion
- ◆ Enhances gloss and depth of image
- ◆ Superior flow and leveling
- ◆ Improves chemical and stain resistance
- ◆ Easy incorporation
- ◆ NO added chemical odor
- ◆ NO respirator needed
- ◆ Requires Medama Power Strip
- ◆ NEVER use on resilient floors
